

Showcase Demo: Team Assignment 8

Published

[Edit](#)

Plan a FIVE-minute "showcase" demo that highlights your application for the JP Morgan judges. Needs to be *repeatable*, you will probably have to repeat over and over for different judges. Keep in mind that the JP Morgan judges are not the same people as the JP Morgan coaches, and will not have read any of your team assignment documents or otherwise be familiar with your project. We recommend that you write a human-executable script specifying what you plan to show and what you plan to say, practice the demo to make sure everything works, and run it by your TA mentor in advance. Tag the exact file versions used for the demo in your git repository.

You do not need to submit anything for this assignment.

Location: 270 Park Ave, New York (Park Ave between 48th and 49th St) - if coming from Columbia, take #1 subway downtown towards South Ferry, get off at 50th Street stop, walk east to Park Avenue, about 40 minutes

Time: Setup 2:30-3pm, Demos 3-5pm, reception and awards ceremony 5-6:30pm
