

Assignment T7: Demo Day

✓ Published

 Edit

⋮

"Demo day" will be on Monday December 20th, using zoom. The zoom link is at the bottom of this assignment and should also be found through the courseworks menu, look for zoom class sessions at or near the bottom of the menu.

Your demo should be no more than 5 minutes long. The timeslots are 10 minutes so you can briefly describe what your service does and get your service started up with screen sharing. You should start by putting something on the screen showing your team name and the names of all team members (ideally this would also show photos of all team members); otherwise, NO SLIDES. Your demo should show your service's API somehow; you can do this by showing your client interacting with your service's API or use POSTMAN or some other API tool.

Every team should sign up for one available 10-minute timeslot on this spreadsheet. Contact the instructor if you have any difficulties. Do not overwrite another team's timeslot and do not overwrite "NOT AVAILABLE".

On the signup sheet, include both your team name and your IA's name. Your IA does not need to attend; I want their name listed so I can quickly find out who to contact if you don't show up (which will result in 0 on the assignment).

Ideally, all CVN students would be able to arrange to attend their team's timeslot, but I recognize this may not be feasible.

CVN-only teams may submit a video by posting a link to the video in response to this assignment. The link must be there before your timeslot starts and must not require logging in or providing any other credentials to see the video. The video should be 8 minutes or less (including team info, brief description and actual demo). Its best that the link is posted at least 24 hours before your timeslot so I can test in advance and any glitches can be worked out.

All other demos must be live. All on-campus students are required to attend during their team's timeslot unless they send me a "documented excuse" on piazza. A dean or similar contacting on your behalf should use email.

Meeting invitation below:

Gail Kaiser is inviting you to a scheduled Zoom meeting.

Topic: COMSW4156_001_2021_3 - ADVANCED SOFTWARE ENGINEERING

Time: Dec 20, 2021 09:45 AM Eastern Time (US and Canada)

Join Zoom Meeting
