Please Submit Bug Reports

✎ **Edit**

We expected everyone to submit the actual bug reports from the first **Bug Hunt assignment**. Many of you did not. Whether you did or did not submit this earlier, please submit now as an upload for this assignment. I'm talking about the actual bug report(s) from the tool(s) you used, not your discussion or synopsis or explanation of those reports. Include in the reports for this assignment exactly which tool was used, and if you used multiple tools, which bug report came from which tool.
