Team Assignment 6: Project Demo Day

You and your team will need to demonstrate your projects to the Professor, you will need to sign up for a presentation time slot [here](#) ➞

(<https://docs.google.com/spreadsheets/d/16ma8OjubnZbdjNu6SoRfn2CFXOIwRkTsxRzeU9kLK58/edit?usp=sharing>). When signing up, include both your team name and your Mentor's name. Do not overwrite another team's time slot and do not overwrite "NOT AVAILABLE". You may stay for the entire event but are only required to be present during your time slot, your mentor is also not required to be present.

Your demo should be no more than 5 minutes long and targeted to the instructor and the other students in the class, not to your team Mentor. Do not assume your audience is familiar with your project. The time slots are 10 minutes so you can briefly describe what your client and service do and get them started up with screen sharing. Start the demo slot by putting something on the screen showing your team name and the names of all team members (ideally this would also show photos of all team members); otherwise, **NO SLIDES**.

CVN students are not required to attend, and if all members of your team are CVN then you can submit a 10 minute video instead of a live demo. CVN teams submitting a video instead of a live demo should submit a link to the video on YouTube or similar, do not upload a video to courseworks! Non-CVN teams can *optionally* submit a video link, which would be considered **in addition to** the live demo, not replacing it. In either case the video should not require the viewer to login anywhere and should not be longer than 10 minutes. If the instructor is prompted for authentication, she won't watch your video; if your video is longer than 10 minutes, she will watch only the first 10 minutes.

Grading is officially complete/incomplete, but the instructor's observations during the demo may affect differential grading of the team project. Thus it would be wise to make sure every team member actively participates in the demo.

Below is a review of the event details:

Date - probably Monday December 16

Time - probably 10am-4pm

Sign Up Sheet -

Submission

You should submit the time of your presentation and/or a link to your video demo in the text box of this assignment. Only one member of your team has to do this. Considering this is the final assignment of the semester, have a great break and happy holidays :)

Points 1

Submitting a text entry box or a website url
